

The airwaves are owned by the public, the citizens of this country, and leased in good faith to broadcast corporations.

However, I am more and more bothered by the fact that all of the radio and tv stations in my city are owned by only 2 companies. Those two companies do NOT support diversity and public comment counter to their editorials and news, the do NOT make public commentary available on a regular basis, and they DO NOT cover all sides of the news.

Sincerely,

Alan Rogers
